### About This Event

<b>Division</b>	Beginner
<b>Date of Event</b>	April 28, 2010
<b>Due Date</b>	May 5, 2010

### Event Scenario

You need to create 10 text files in a folder off the root, such as c:\fso. The 10 text files should be named File1, File2...File10. The 10 text files will be used as templates for class note-taking. The contents of one of the files are seen in the following image. All ten text files should contain exactly the same content.
