2010 Scripting Games: Beginner Event 8--Listing Process Information

ScriptingGuy1   5 May 2010 1:01 AM   0

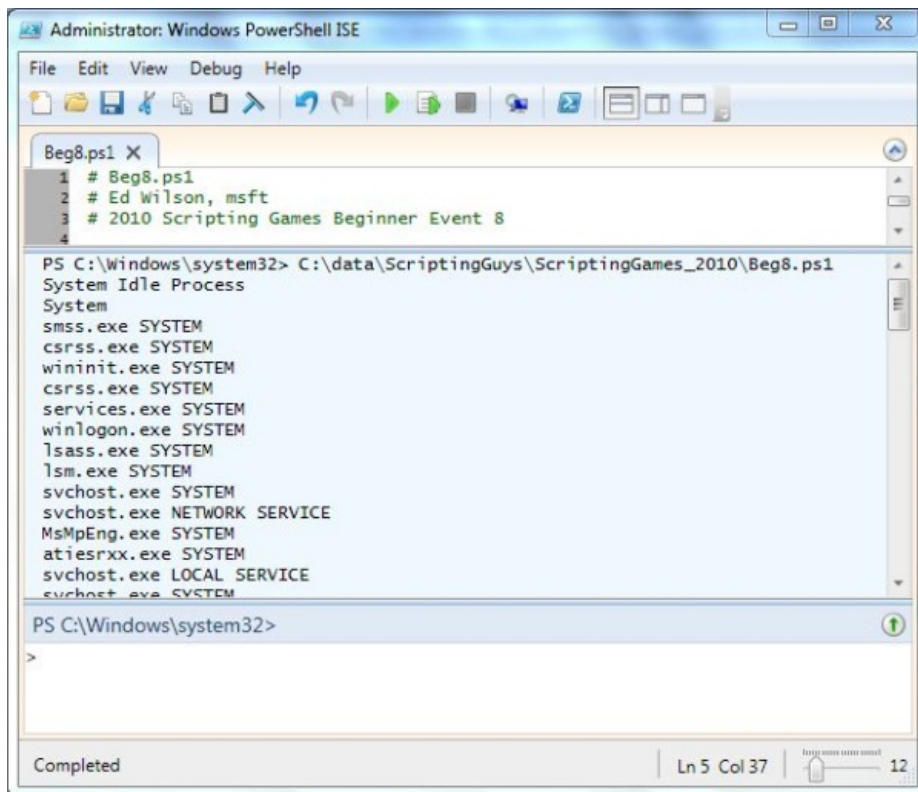

Note: We are no longer accepting entries for this event. See the due dates page for a list of all event due dates.

About This Event

Division	Beginner
Date of Event	May 5, 2010
Due Date	May 12, 2010

Event Scenario

You are concerned about the processes that are starting up automatically on your computer, and you would like to gather more information about all the processes on your system. You are particularly interested in the process name and the owner of the process. Your output should list the process name and the owner as shown in the following image.

Design Points

Your script does not have to run against a remote computer.
Extra points for sorting the processes alphabetically.
Extra points for grouping instances of the same process.
